University of Canberra

Kristie Harpley is an Associate at Moores, specialising in commercial law, privacy, regulatory compliance and not-for-profit law.

Kristie is committed to providing practical and realistic advice that will progress the ultimate purpose of her clients.

Kristie provides advice in relation to contract matters, tender reviews, structure advice, risk assessment, privacy matters and regulatory compliance. She regularly presents to clients in relation to privacy law, an area which she is passionate about. Kristie prides herself on delivering seminars on traditionally “dry” topics in an upbeat and engaging manner, and finds joy in pleasantly surprising her clients who not only gain insight but also thoroughly enjoy the sessions.

Kristie brings a unique combination of experience to the Corporate Advisory Team. She has previously worked in-house with a not-for-profit organisation in London, which provides her with unique insight into the needs of her clients at Moores. Combined with her experience working with organisations and individuals in regional NSW before her move to the “big smoke”, Kristie is able to provide an understanding and empathetic ear to her clients while delivering strategic solutions to their issues.
